Academic Details

- **Bachelor of Computer Application (BCA)**
  Poona College , Pune;
  CGPA: 9.15

Soft Skills

Analytical | Collaborator | Leader | Adaptable

Technical Skills

- **Programming Languages:**
  C, C++, Java
- **Web Devlopment :**
  HTML, CSS, JavaScript,PHP

Core Competencies

Programming Proficiency

Problem-Solving

Continuous Learning

Debugging

Team Collaboration

Web Development

Version Control

Performance Optimization

System Scalability

Personal Details

Date of Birth: 17th Aug 2005
Languages Known: English, Hindi and Marathi
Address: Pune, Maharashtra

Profile Summary

- A full stack developer with high **problem-solving skills** and develops **complex projects**.
- **Highly motivated** and detail-oriented BCA student with a strong foundation **in programming, web development, and database management**.
- **Developed a highly scalable attendance system** which is used regularly in our college.
- Adept at **utilizing various programming languages** and tools to **create efficient and user-friendly solutions.**
- Identified the visual inaccuracies in the existing college website and **improved** the UI.
- Possesses **in-depth knowledge of multiple technology stacks** which in turn contributes to an efficient development stage of products.

Academic Projects

Tours and Travelling System	**Jan 2024**
Tools: EJS , HTML , CSS , Node.js, Javascript , MongoDB	

User-friendly interface, Admin storage management, CRUD operations for tour packages.

Responsibilities:
- Designed and developed a user-friendly interface for browsing and selecting tour packages.
- Implemented an admin panel for managing and storing tour package details in a database.
- Developed CRUD operations (Create, Read, Update, Delete) for tour packages.
- Conducted testing and debugging to ensure the functionality and reliability of the system
- http://propperty.onrender.com/

News API Website	**Feb 2024**
Tools: PHP, API	

Real-time news updates from multiple sources.

Responsibilities:
- Developed a website that fetches and displays news articles from various sources using a News API.
- Implemented real-time news updates and category/keyword-based filtering.
- Designed a responsive interface to ensure compatibility with different devices.
- Optimized the website for performance and quick load times.
- Conducted testing to ensure the accuracy and reliability of the news data
- http://rangoko.42web.io/

Future Goal's

- **Pursuing Advanced Studies**: I plan to pursue a Master's degree in Computer Application to deepen my knowledge and expertise.
- **Gaining Industry Experience**: I aim to secure internships and job opportunities that allow me to work on cutting-edge projects and collaborate with experienced professionals.
- **Contributing to Open Source Projects**: I am eager to contribute to open source projects to give back to the community and enhance my coding skills.
- **Developing Innovative Solutions**: My long-term goal is to develop innovative software
